

# FREE Pine Needle Recycling Programs

## 2008 DROP-OFF PROGRAM:

Clean, loose pine needles can be recycled by drop-off at the Diamond Peak Ski Resort upper parking lot (1210 Ski Way, Incline Village, NV) 7 days a week.

Program dates: May 1 through Sept. 1, 2008

Hours of operation:

Monday - Friday: 8 AM to 4 PM

Saturday & Sunday: 10 AM to 3 PM

**Opens  
May  
1,  
2008**

## New! 4 CURBSIDE COLLECTION WEEKS!

Place up to 6 bags of clean pine needles curbside for **recycling**, on your normal trash collection day, during the last week of each month:

May 26 - 30 / June 30 - July 4 / July 28 - Aug. 1 / Aug. 25 - 29

Pine needles placed out during other weeks will be collected, but landfilled.

Designate the bags for recycling by using clear bags or attaching a label to the bags. (see below for labels). Place them away from the trash. Please, clean pine needles only! No trash, pinecones, branches or stumps!

Limit is 7 cans/bags total of trash and pine needles curbside each week.

(Example: If you have 1 can of trash, you can put out 6 bags of pine needles; If you have 2 cans of trash you can put out 5 bags of pine needles). If you have more than 6 bags, call Waste Management for a special pickup at 775-831-2971, or arrange for drop-off at Diamond Peak. Please tell your landscaper to take bags from your property to the drop-off location, not to leave bags at the curb.

Labels for pine needle bags are available at: IVGID Public Works (1220 Sweetwater Rd.), IVGID Administration Offices (893 Southwood Blvd.) and online at: [www.ivgid.org/conservation](http://www.ivgid.org/conservation)

## Protect your property and Lake Tahoe:

Rake off roofs, driveways and turf areas, **but leave 1-2 inches of decaying needles over bare soil.**

*The decaying pine needle "duff" layer is important to leave intact for the health of the soil.*
